These rates apply to what is referred to as a 'Gang Run' which means 2-5 different businesses order similar quantities at the same time, cutting down on press time, which in turn lowers the price for each business significantly. The typical turnaround time for this process is 15-25 days. Contact your Account Executive for more information as to how you can save money on your print and promotional needs with Lake Printing Company.

*Paper certified & produced from well managed forests that protect our land, water, indigenous people and workers.
